General information

Our safari lodge is located within a Big Five endangered species reserve, internationally recognized for introducing 28 black rhinos in 2005 as part of conservation efforts for this highly endangered species. Covering approximately 60,000 acres, the reserve is home to a variety of wildlife, including elephants, rhinos, leopards, lions, buffalos, wild dogs, cheetahs, hyenas, and other plains game animals native to the area. Our strategic location allows us to offer additional activities listed as day trips from our lodge.

The safari experience is fully guided, allowing you to choose the activities you'd like to participate in and the preferred times for your game drives. Our facilities feature private en-suite chalets with a swimming pool, dining room, lounge, bar, and an outdoor fireplace for your evening enjoyment.
